

Posey County EMS
Community Paramedic

COMMUNITY PARAMEDICINE PROGRAM

Simply put, community paramedicine is the return of the home visit from a medical provider.

HOW WE CAN HELP: WE ARE HERE TO SERVE YOU!

Our PRO-ACT Program is staffed by a licensed paramedic that is specially-trained in providing follow up guidance and care that involve these factors and more:

- Fall Prevention
- Post Hospital Follow-Up
- Chronic Disease Management
- Maternal/Infant Wellness
- Child Injury Prevention
- Vaccinations

WHAT IS COMMUNITY PARAMEDICINE?

Posey County EMS now offers a new service to the area called Community Paramedicine through our PRO-ACT (Proactive Response, Observation and Assessment, for Community Thriving) Program. Community Paramedicine is a proven, state-wide initiative to provide preventative services and reduce hospital readmissions through in-home assessments and coordination with healthcare providers, all focused on helping you remain as independent as possible from the emergency system as well as helping you access and utilize available community resources.

Making a Difference in a Different Way!
